Bestellen met de EAN-code

De EAN-code is een internationaal geaccepteerd artikelnummer, dat beheerd wordt door een onafhankelijke organisatie. EAN-codes zijn, door hun wereldwijde verspreiding en hoge acceptatiegraad, ideaal geschikt als productnummers.

Producten identificeren en bestellen is veel eenvoudiger als ze wereldwijd een uniform productnummer hebben. De overschakeling op EAN-codes biedt ook voordelen voor u, zoals tijdwinst en een grotere betrouwbaarheid, als u bijvoorbeeld telefonisch inlichtingen wilt inwinnen over een product. Via de EAN-code kan onze afdeling Customer Services snel alle belangrijke informatie over het product terugvinden. De EAN-code is niet taalgebonden en daardoor universeel. Ook het controleren van leveringen zal sneller kunnen verlopen dankzij deze codes.

Wanneer te gebruiken?

De EAN-code moet voortaan vermeld worden in alle communicatie in verband met een product. U vindt de code op pakbonnen en facturen alsook in de E-catalogus en onze lichtpocket / prijslijst. De code moet vermeld worden in product- en prijsaanvragen, orders enz. Kortom, op alles wat te maken heeft met een concreet product.

Vragen in verband met de EAN-code?

Als u vragen hebt over de EAN-code en het gebruik ervan, neem dan a.u.b. direct contact op met OSRAM Customer Services.

Gebruik bij uw bestelling en bij vragen
altijd de **13 cijferige EAN-code**.
